VIDEOKIDZ are live video performers. We design and create audiovisual installations. We develop performance projects involving new media and projection technologies. We produce and present original multi - stream VJ performance, we create screen slide projections as well as video and new media technologies to create and improve custom - tailored public and private spaces with image projection. We artistically combine moving and static pictures, which make interior design amazingly much more

attractive. It adds this special value that puts it on the edge of a unique style. Your décor improves through the use of our own distinctive methods of projection aimed in achieving original visual effects as illustrated in the photos enclosed. Our thematic installations for the functions add more desired character and style. It could be anything like Barbie Party; Latina; Underwater World; Halloween; Valentine's Day, etc.

Our primary objective is to meet the requirements of our clients. We start from designing

visual set that we proceed with upon our client approval. The first step - designing visual set is followed by the production stage.

Recently we have extended our range of services to offer DVD Authoring service. This includes interactive menu design, encoding and DVD presentations.

We have worked for brands such as: MTV, Levis, Wyborowa Vodka, Bols Vodka, Martini, Miller, Siemens, Wella Cosmetics, Nivea Cosmetics, Marlboro, Davidoff, Leo Burnett, Polish TV stations and mobile companies.

FUNCTIONS

Before

After
